

ME MORANDUM

TO: Directors Human Resources

FROM: Abner JeanPierre, Director of Classification & Compensation

Scott DeFruscio, Director Division of Staffing Services

SUBJECT: Expansion of Early Advancement Option to Trainees

in Two-Year Traineeships

DATE: August 7, 2017

* * * * * *

On February 26, 2015, the Department expanded the early advancement option for all trainees serving in professional titles with two-year traineeships leading to Salary Grade 18. Effective August 7, 2017, this early advancement option will be extended to most other two-year traineeships regardless of Salary Grade (see Appendix). This memorandum supersedes Advisory Memo #15-01, included in SPMM 1850(H).

Early Advancement (fast-tracking) is defined as advancement from the second level of a two-year traineeship to the full-performance level of the target title after 18 months of service that exceeds the traineeship's performance standards. The trainee must be, therefore, functioning at the full performance level of the title after 18 months of service. Use of early advancement is at the discretion of the appointing authority after a documented review of an employee's performance.

Note that "Advanced placement" within a traineeship is distinct from early advancement. Advanced placement allows appointment, based upon a candidate's qualifications, to either the second level of a traineeship or the full performance level of the target title. Use of advanced placement is at the discretion of the appointing authority and used only at the time of original appointment. Only relevant experience may be credited. There is no advanced placement credit for out-of-title work.

NYSTEP transactions involving early advancement should be submitted in the same manner as other trainee advances.

All other traineeship program requirements are unchanged. The following is an outline of the basic requirements:

A. Agency Responsibilities

- I. Review Agencies must maintain an internal review process to ensure consistent, objective administration of the program; and provide guidance and assistance to supervisors and trainees. Because of the diverse nature of state agencies, no particular configuration is required. Agency level review boards, administrative or training/human resources officers may be vested with this responsibility and have the authority to establish and ensure that adequate administrative practices exist in support of the program.
- II. Role and Functions Agencies will be responsible for:
 - Monitoring the timeliness of preparation of Individual Development Plans (IDPs) and evaluations.
 - Determining that consistency exists between the duties described in the IDP and position classification standard.
 - Ensuring that rating levels across title/organizational lines are consistent and that sufficient justification exists to support rating levels assigned and the ultimate decision to retain, advance or terminate the trainee.
 - Fostering adequate training and development activities to provide trainees with the opportunity to acquire and demonstrate knowledge, skills and abilities necessary for full performance level.

B. Documentation Requirements at the Agency Level

- Individual Development Plans Supervisors must develop IDPs to give trainees relevant information about their duties and the standards against which their performance will be measured during the traineeship. The trainee's background and experience should be assessed against the requirements of the position and applicable training and development activities should be identified and included in the Plan.
- II. Performance Evaluation and Payments Trainees are to be evaluated at each six months of service, and based on their observed performance, assigned an appropriate rating. Trainees, who meet payment eligibility requirements, will receive any applicable performance advance payment on the beginning of the pay period that follows completion of 6, 12 and 18 months of service.

C. Early Advancement

This provision allows an agency to advance a trainee to the target title at the 18-month point or during the 18- and 24-month interval of service when conditions for early advancement are met.

Generally, the conditions for early advancement are that trainees receive the highest performance rating at the 12- and 18-month intervals of trainee service and demonstrate performance of the full range of duties and responsibilities of the target title. By early advancing a trainee, the agency is attesting that the trainee is performing the full range of duties and responsibilities of the target title.

Early advancement is not allowed in the following instances:

- The traineeship has a duration of less than two years.
- The trainee was advanced placed to the second level of a traineeship. Accordingly, the appointee must still complete 52 weeks as a trainee.
- Titles that allow automatic advancement to higher allocated titles after the completion of one year of satisfactory service.
- Traineeships or automatic advancement plans that rely upon completion of college coursework, formal training, or the earning or possession of certifications, licenses, or other credentials and the maintenance of such credentials.
- Traineeships or apprenticeships in recognized trades or other "blue collar" occupations, including those in which a specific set of skills are learned under the supervision of a journey-level or otherwise skilled trades person.

The Director of Classification and Compensation retains the discretion to modify or terminate this program.

Appendix

Two-Year Traineeships Eligible for Early Advancement As of August 7, 2017
