Half Tablet Program

Effective January 1, 2011, the Half Tablet Program can dramatically lower your costs on select medications that you take on a regular basis. To participate in the Program, your doctor must write a new prescription for twice the dosage and half the quantity. Then when you fill the prescription, you will automatically pay only half your usual copayment. Split each tablet and take half to get your usual dosage at half the cost. To see a list of medications available under this program, go to the New York State Department of Civil Service web site at <http://www.cs.state.ny.us> and select Benefit Programs. Follow the prompts to access NYSHIP Online and choose Find a Provider. Scroll to the Prescription Drug Program links and click on Empire Plan Half Tablet Program. The Empire Plan will provide participants with one free tablet splitter by mail upon request.

Flexible Formulary

The Empire Plan Prescription Drug Program has a flexible formulary for prescription drugs. The Empire Plan Flexible Formulary drug list is designed to provide enrollees and the Plan with the best value in prescription drug spending. This is accomplished by:

- excluding coverage for a small number of drugs;
- placing brand-name drugs that provide the best value to the Plan on the Flexible Formulary drug list; and
- applying the highest copayment to non-preferred brand-name drugs that provide no clinical advantage over generic or preferred brand-name drug alternatives.

An excluded drug is not subject to any type of appeal or coverage review, including a medical necessity appeal.

2011 Flexible Formulary Changes

Certain drugs have been added to the list of drugs excluded from coverage under the 2011 Flexible Formulary. A list of accepted alternatives to these excluded drugs, along with a complete list of all excluded drugs, is available online. Visit the New York State Department of Civil Service web site at <https://www.cs.state.ny.us>. From the home page, click on Benefit Programs and follow the prompts to access NYSHIP Online. Click on Using Your Benefits and then 2011 Empire Plan Flexible Formulary.

New prescription drugs may be subject to exclusion when they first become available on the market. Check the web site for current information regarding exclusions of newly launched prescription drugs. Coverage for prescription drugs excluded under the benefit plan design are not subject to exception. This includes prescription medications excluded from coverage under the Empire Plan Flexible Formulary.

Federal Health Care Reform

Grandfathered Health Plans

Under the Patient Protection and Affordable Care Act, a grandfathered health plan is permitted to preserve certain basic health coverage that was already in effect when the Act was signed into law on March 23, 2010. Being a grandfathered health plan means that the plan may delay implementation of certain features of health care reform that apply to other non-grandfathered health plans. For example, the requirement for the provision of preventive health services without any cost sharing does not need to be included under a health care plan until the plan is no longer grandfathered. However, grandfathered health plans must comply with certain other consumer protections in the Act such as the elimination of lifetime limits on certain benefits. The benefit package provided to your group is a grandfathered plan.

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan status can be directed to the New York State Department of Civil Service Employee Benefits Division, Alfred E. Smith State Office Building, Albany, NY 12239. You may also contact the U.S. Department of Health and Human Services at www.healthreform.gov.
