

2025 Empire Plan Advanced Flexible Formulary Excluded Drug List Administered by CVS Caremark®

Below is a list of medicines that are NOT COVERED on your prescription drug benefit. If you continue using any of the drugs listed, you will be required to pay the full cost of non-formulary products that are excluded from coverage unless a request for a medical exception is approved. New prescription drug products may be subject to exclusion upon release to the market.

If you are currently using any of the excluded drugs listed below, you may wish to discuss the preferred generic or brand-name alternatives with your doctor.

LIST OF EXCLUDED DRUGS

The preferred alternative products listed below are a broad representation of available treatment options and do not necessarily represent clinical equivalency.

EXCLUDED DRUG NAME(S)	PREFERRED ALTERNATIVE(S)	EXCLUDED DRUG NAME(S)	PREFERRED ALTERNATIVE(S)
ACCRUFER	Talk to your prescriber	ADALIMUMAB-AATY	ADALIMUMAB-ADAZ SGM , COSENTYX SGM , ENBREL SGM , HADLIMA SGM , HUMIRA SGM , HYRIMOZ (CORDAVIS) SGM , OTEZLA SGM , RINVOQ SGM , SKYRIZI SUBCUTANEOUS SGM , STELARA SUBCUTANEOUS SGM , TREMFYA SGM , XELJANZ SGM , XELJANZ XR SGM

ZOMACTON	HUMATROPE SGM , NORDITROPIN SGM	ZYVANA	folic acid, folic acid-vitamin b6-vitamin b12, FOLTX

FOR YOUR INFORMATION: This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. Any brand-name drug for which a generic becomes available may be designated as a non-preferred drug. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The enrollee's prescription benefit plan may have a different copay for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand-name drugs in CAPS and generic products in lowercase *italics*. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to www.empireplanrxprogram.com to check coverage and copay information for a specific medicine.

The **Advanced Flexible Formulary Preferred Drug List** has an additional feature called Brand for Generic (**B4G**) which saves you money on certain brand-name drugs that have a new generic available. When advantageous to the Plan, this feature allows a brand-name drug to be placed on Level 1, the lowest copayment level, and the new generic equivalent to be placed on Level 3, the highest copayment level, or excluded. These placements are for a limited time, typically six months, and may be revised when such changes are advantageous to The Empire Plan. You will be notified when B4G savings are available. We will also notify your pharmacist so that the lowest cost option will always be dispensed. Please refer to The Empire Plan website at www.empireplanrxprogram.com for the most current information regarding the B4G feature.

The Empire Plan has implemented a medical exception process for prescription drugs that are excluded from the Advanced Flexible Formulary Preferred Drug List. Enrollees and their prescriber must first evaluate whether covered drugs on the Advanced Flexible Formulary Preferred Drug List are appropriate alternatives. After an appropriate trial of formulary alternatives, an enrollee's prescriber may submit a letter of medical necessity to CVS Caremark which details the enrollee's formulary alternative trials and any other clinical documentation supporting medical necessity. The prescriber can fax the exception request to 1-888-487-9257. If an exception is approved, the Level 1 copay will apply for generic drugs and the Level 3 copay (and Ancillary Charge, if applicable) will apply for brand-name drugs.

Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

Some listings do not include certain NDCs as noted above.

For VOSEVI listing above: For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

The information contained in this document is proprietary. The information may not be copied in whole or in part without written permission.
