**Subject of Examination:** To be considered for appointment to this title, you must pass the **multiple-choice test**. The **multiple-choice test** evaluates your knowledge, skills, and/or abilities in the following areas:

1. **Drawings, specifications and contract documents** - These questions test for knowledge of typical building construction contract and specification requirements; and the ability to read, analyze, and perform computations and quantity and cost estimates based upon technical drawings and plans of various types of buildings and related structures.
2. **Inspection and supervision of building construction projects** - These questions test for knowledge of the appropriate principles and methods to use when inspecting and overseeing construction work on various building related projects, including proper adherence to plans and specifications, resolving technical, safety, and scheduling problems, dealing with contractors and workers, interpreting and implementing materials requirements and testing procedures, and inspection record keeping.
