Subject of Examination: To be considered for appointment to this title, you must pass the **multiple-choice test**. The **multiple-choice test** evaluates your knowledge, skills, and/or abilities in the following areas:

1. **New York State Abandoned Property Law, Rules, Regulations and Unclaimed Property Policies and Procedures** - These questions test for knowledge of the New York State Abandoned Property Law, the Comptroller's Rules and Regulations, and established written policies and procedures relevant to the operations of the New York State Office of Unclaimed Funds in effect as of January 1, 2024. Some of the questions are presented in the context of specific situations and may require you to draw conclusions or perform calculations to determine answers.
2. **Supervision** - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
3. **Preparing reports and official documents** - These questions test for the ability to prepare reports and other official documents for use within and among governmental agencies, in legal or regulatory settings, or for dissemination to the public. Some questions test for a knowledge of grammar, usage, punctuation, and sentence structure. Others test for the ability to present information clearly and accurately, to use the proper tone, and to organize paragraphs logically and comprehensibly.
4. **Understanding and interpreting tabular material** - These questions test your ability to understand, analyze, and use the internal logic of data presented in tabular form. You may be asked to perform tasks such as completing tables, drawing conclusions from them, analyzing data trends or interrelationships, and revising or combining data sets. The concepts of rate, ratio, and proportion are tested. Mathematical operations are simple, and computational speed is not a major factor in the test. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will **not** be permitted to use the **calculator** function of your **cell phone**.
5. **Abandoned Property Accounts Auditing** - These questions test for knowledge and application of the audit process, including the ability to plan and supervise audits of entities required to comply with the New York State Abandoned Property Law in effect as of January 1, 2024.
